Re: Notices and/or Reports of Blue Granite Water Company of Water
Conservation Measures Filed Pursuant to Commission Regulation 103-772

Dear Ms. Boyd:

Pursuant to S.C. Code Ann. Regs. 103-772(C), Blue Granite Water Company (the "Company") is hereby providing notice to the Commission and the Office of Regulatory Staff that the Company has found it necessary to implement a water conservation schedule in its service territory located in Lake Wylie, South Carolina.¹ The Company has provided notice to affected customers via telephone and email. The Company has also issued a press release, provided notification via social media outlets, and added notice of the water use restrictions on its website.

As explained in the notice attached hereto as Exhibit A, due to heightened water demand in the Lake Wylie area, the water conservation schedule is necessary to protect the public health, safety, and welfare of the Company's customers by ensuring adequate water for drinking, sanitation, and fire protection services. The notice provides details on the schedule and uses customers must adhere to in implementing the water conservation schedule, and states that the water use restrictions will begin on May 31, 2019 and are expected to end on October 1, 2019.

Should you have any questions or concerns about this notice, please let me know.

Kind regards,

Sam Wellborn
